Reporting Platform:

Merchants can access 24/7 online reporting, offering detailed sales reports, transaction data, and an easy-to-use refund process.

Sales Platform:

Monitor terminal health, remotely power terminal on or off, and access additional management tools from an online platform.

Certified Secure

Trust and security are at the core of financial transactions. Our systems meet the highest security standards, certified by EMVCo, PCI, and TUV.

- PCI DSS Level 1 Compliance: Ensures the highest level of security for card transactions.
- End-to-End Encryption: Protects cardholder data from unauthorized access.
- DUKPT Security: Each transaction is encrypted with a unique key, ensuring data protection.
- TLS-Secured Connections: Guarantees secure communication between devices.
- Remote Management System: Enables software updates and proactive threat prevention.
